

Mag LED Portable Light

Description

Introducing the Mag: a portable, rechargeable LED light for the modern home. Designed for use with the optional pendant, wall or table lamp base, a single Mag Light can be used for a variety of lighting solutions. Mag attaches to the base via strong magnetic contact, allowing the light to be adjusted to any angle, while being easy to remove when it is needed elsewhere. Mag is equipped with a built-in 1.5W LED (2700K, 100lm, CRI80) and features a 3-step dimmer switch. Powered by a rechargeable lithium battery which provides a up to 5hrs illumination on full power, or up to 20hrs on low. Rechargeable via a standard USB type-C cable. An impeccable build quality with a class III IP44 rating means Mag is water resistant and can be used as a temporary outdoor light for camping or the patio.
